**Welcome to the School of Governance and Policy Science (SGPS)!**

SGPS is a multidisciplinary endeavour where we bring together students and researchers who aim to better understand and make a difference in our fast-changing world. We host a wide range of outstanding scholars and programmes, each featuring their own intellectual and methodological identities while seeking to answer questions of global significance. Our teaching reflects the fast tempo of changes at the global and local levels that are reshaping governance, public policy, as well as domestic and international politics.

Given Hong Kong's unique role in greater China and Asia, many SGPS scholars have extensive experience in the region as well as in China studies. At the same time, the global environment structured by states, international organizations, firms and citizens is critical to our understanding of how various facets of local and global governance evolve and interact with one another.

I encourage you to explore the programme in Government and Public Administration in this brochure. You can access detailed information about the school and this programme on our website.

Happy exploration!

(2013)

在不同銀行負責合規  
(Compliance) 的工作  
Compliance Practitioner

選擇讀政政無疑是我作過最好的決定之一。三年的政政訓練，使我從一個只會墨守成規地學習的人，變成有批判性和多角度思考能力的人。合規工作就是要從銀行日常運作中找出不符合銀行規例的情況。銀行法規與政府政策分不開，而政策研究是政政課程的重要範疇。我很感激政政的訓練為我的事業奠定了良好的基礎。

Choosing GPAD was undoubtedly one of the best decisions I have ever made. The three-year journey transformed me from a person who only studied mechanically to one with critical thinking and multiple perspectives. Such skills are indispensable to my job in compliance which is about spotting deficiencies in banking processes against banking regulations. Banking regulations are related to government policy, an important aspect in the GPAD training. I am grateful that GPAD laid a good foundation for my career.

政政最寶貴之處是導修課提供自由討論的空間，鼓勵批判思維。日後不論在社會擔當甚麼角色，在政政培養的獨立思考及邏輯思辯能力都畢生受用。

The most valuable aspect of GPAD is the free discussions in tutorials, which encourages critical thinking. Whatever role one would take up in society, the independent thinking and logical reasoning cultivated in GPAD will be beneficial throughout one's lifetime.
